Introduction

Clarico is a Responsive, Clean, Modern & Sectioned Odoo eCommerce Theme. Crafted to be Pixel Perfect, it is built using Bootstrap Grid and can be suitable for any kind of online store category like Fashion, Electronics, Beauty, Health & Fitness, Jewellery, Sports etc.

It is a fully responsive theme and looks equally stunning on all kinds of screens and devices. It is built with various attractive features like 7 Custom Header styles, 3 Custom Footer Styles, 10 Custom Button Styles, 6 Custom Mega Menu Layouts, Quick View, Price Filter, 50+ Designed Custom Snippets etc.

Install & Update The Theme

Before installing the Theme Clarico. Make sure that you have downloaded the latest Odoo version as well as the latest version of Theme Clarico along with submodules.

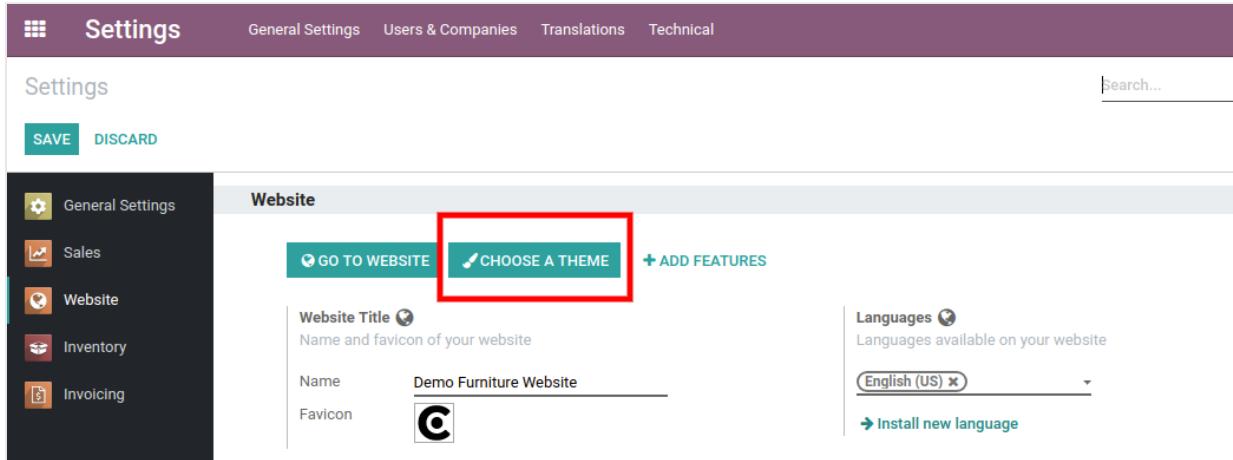

Install Theme

After downloading the Theme Clarico from the Odoo store. You will get the multiple folders and there is one folder named "theme_clarico". It's a theme folder and other folders are functional modules.

Add all the folders in your addons directory and restart the Odoo server instance and update your app list from 'Apps' menu from the admin view.

Now go to Website → Configuration → Settings. In Website settings, select a website in which you want to install Theme Clarico, click on the "Choose A Theme" button. You will be redirected to the list of available themes. Click on Theme Clarico to Install it on your website.

Update The Clarico

To update the latest version of the theme, First, download it from Odoo Store and replace it with your existing Theme. There can be two scenarios for updating Theme features.

Changes Into Emipro Theme Base

This modules contain business logic and functional elements for all Emipro eCommerce themes in Odoo V13. So if there are any changes in business logic, then you need to mandatory upgrade the "Emipro Theme Base" module.

Changes Into Theme Clarico

'Theme Clarico' contains UI elements. So if there are any updates related to UI or template then you need to upgrade the Theme. For that, navigate to 'Website → Configuration → Settings' and select the website and click on 'CHOOSE THEME' then update the theme.

C CLARICO V13 eCommerce

B BOOTSWATCH Theme

D DEFAULT Theme

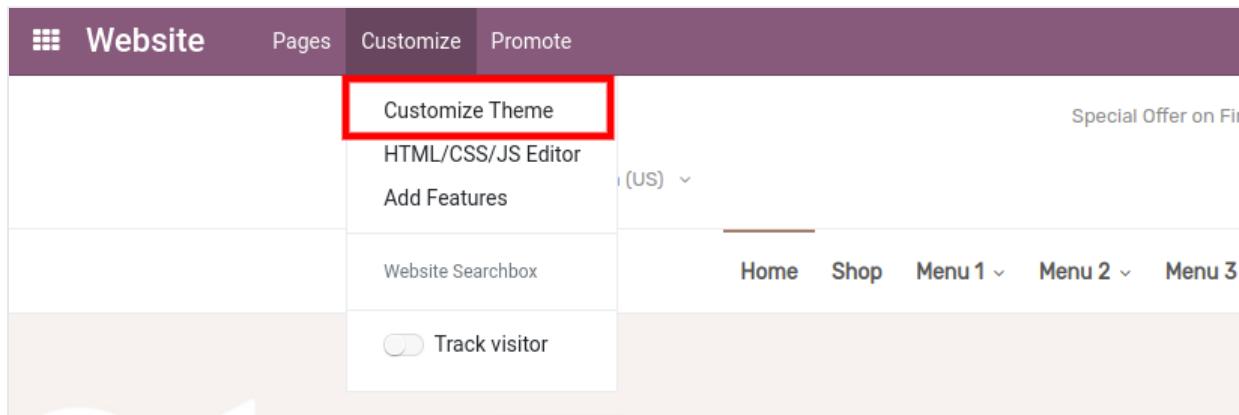

The screenshot shows the Odoo Settings interface under the 'General Settings' tab, specifically the 'Themes' section. It displays three theme options:

- C CLARICO V13** (eCommerce): This theme is currently active, indicated by a red box around the 'UPDATE THEME' button. The preview shows a dark-themed website with a large headline 'Most Stunning' and a sub-headline '#1 Choice for any odoo Website & eCommerce Store'.
- B BOOTSWATCH**: A preview of a light-themed website with a grid of images and a navigation bar.
- D DEFAULT**: A preview of a light-themed website with a navigation bar and a mobile device icon.

At the top right, there are search and filter buttons. The bottom left features decorative colored bars.

How To Change Header Style?

To change the header style, go to Web Pages -> Customize -> Customize Theme -> Headers and choose the header style.

Footers

Theme Settings

The interface allows users to customize various aspects of their theme, including colors, navbar, layout, fonts, buttons, headers, footers, and theme settings. The 'Buttons' and 'Footers' sections are currently selected.

As shown in the above screenshot we provide seven header styles. So you can easily configure the best header as per your requirements.

How To Change Footer Style?

To change the footer style, go to Web Pages -> Customize -> Customize Theme -> Footers and choose footer style.

In footer style 3, we provide dynamic map functionality. When using footer style 3 on your website, Map will show the address of your company that you have configured in the company of your present website.

Note: If there is no configured company address or map that can not locate your position, then Glob Map will be shown without any marker indication.

Customize Theme

CHOOSE YOUR FOOTER STYLES

The screenshot shows a 'Customize Theme' interface with a sidebar on the left containing buttons for Colors, Navbar, Layout, Fonts, Buttons, Headers, Footers, and Theme Settings. The 'Footers' button is highlighted. To the right, there's a title 'CHOOSE YOUR FOOTER STYLES' above three examples of footer designs. Each example features a logo at the top, followed by a horizontal line with dots and a dashed line below it. The first example has a grid of lines and dots. The second example has a grid of dots and lines. The third example has a world map icon and a grid of lines and dots.

As shown in the above screenshot we provide Three footer styles. So you can easily configure the best footer as per your requirements.

How To Change Button Style?

To change the button style, go to Web Pages -> Customize -> Customize Theme -> Buttons and choose the button style.

As shown in the above screenshot we provide ten button styles. So you can easily configure the best button style as per your requirements.

Note: The button style will be changed only in the CMS block.

How To Enable Header Offer Style?

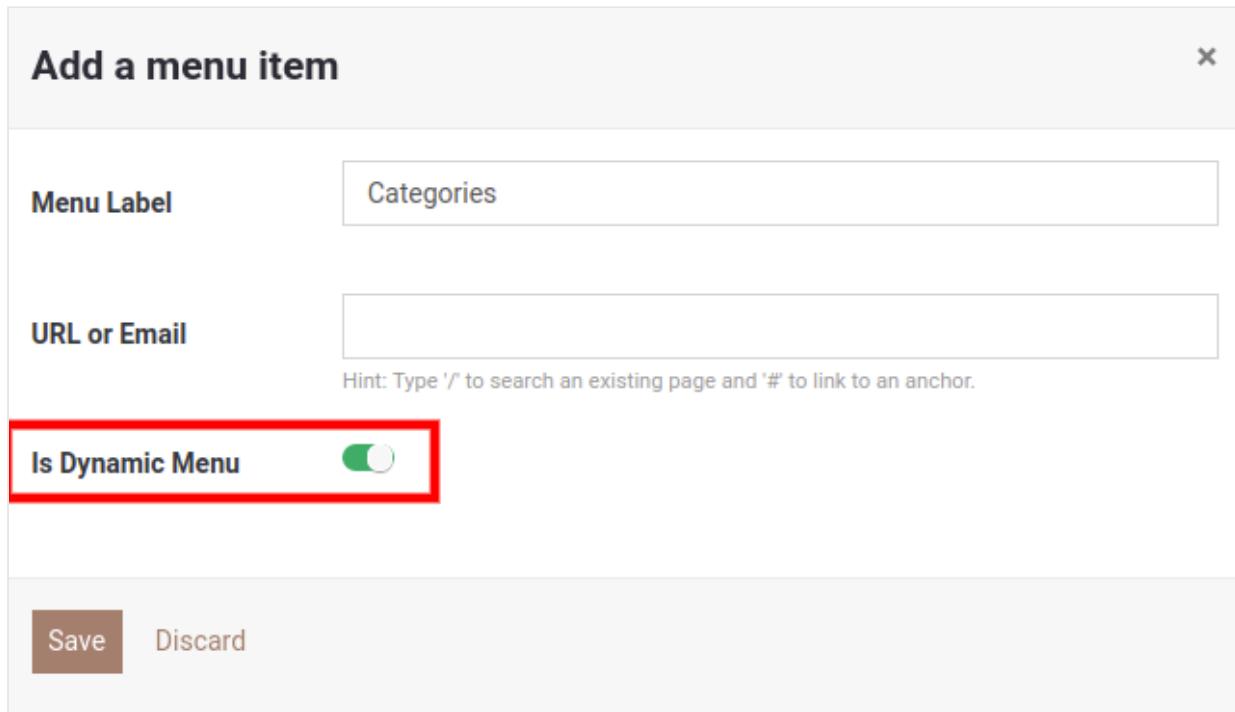

After selecting the header style, the offer text will available by default. If you want to delete or edit them, then simply click on the 'Edit' button from the top right of the webpage and edit that.

If you have deleted offer texts and you want that section back, then drag and drop the snippet named 'Header Offer Text' from the Inner Snippets category. Then save your changes.

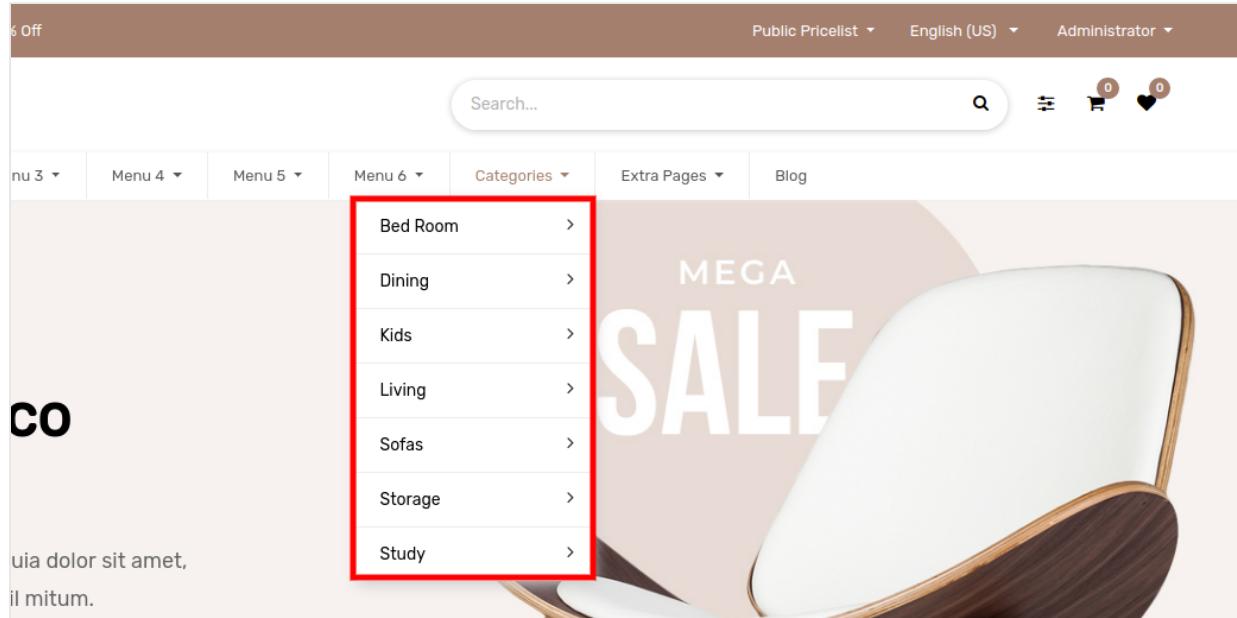

How To Enable Dynamic Category Menu?

To enable the dynamic category menu, Go to Web Pages -> Pages -> edit menu and edit the menu which you want to set as a dynamic category menu.

As shown in the above screenshot there is one option to enable/disable the dynamic category menu.

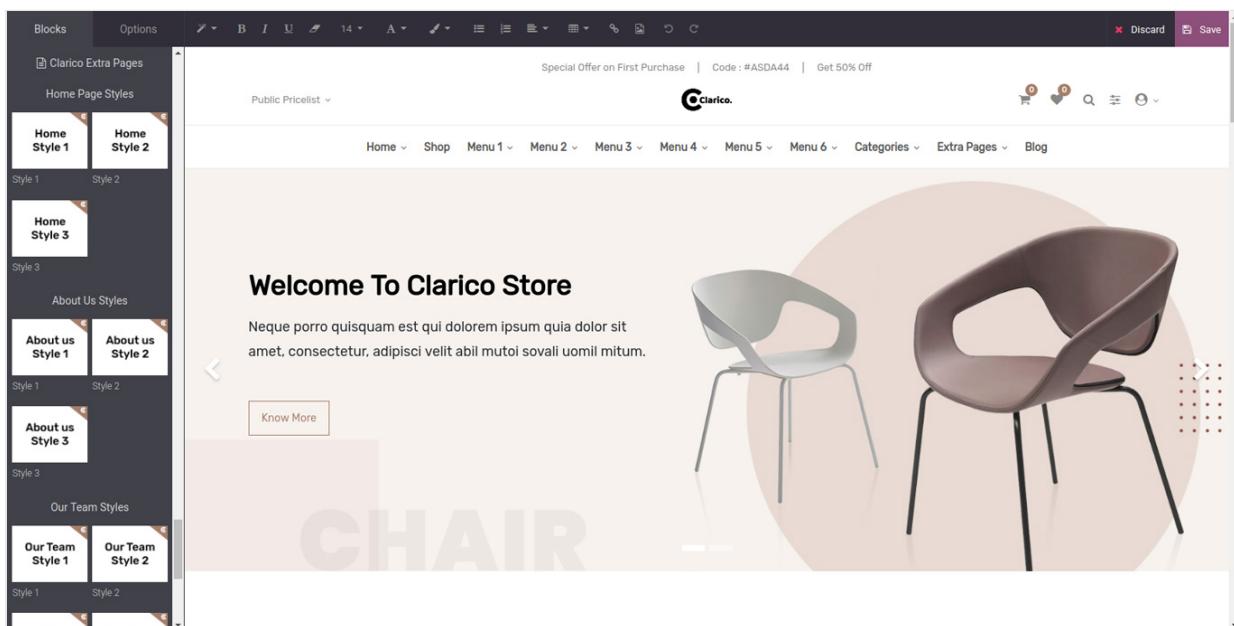

After enabling this option, this menu will show a list of category. Please review the below screenshot for your reference.

How To Apply Clarico Extra Page Snippets?

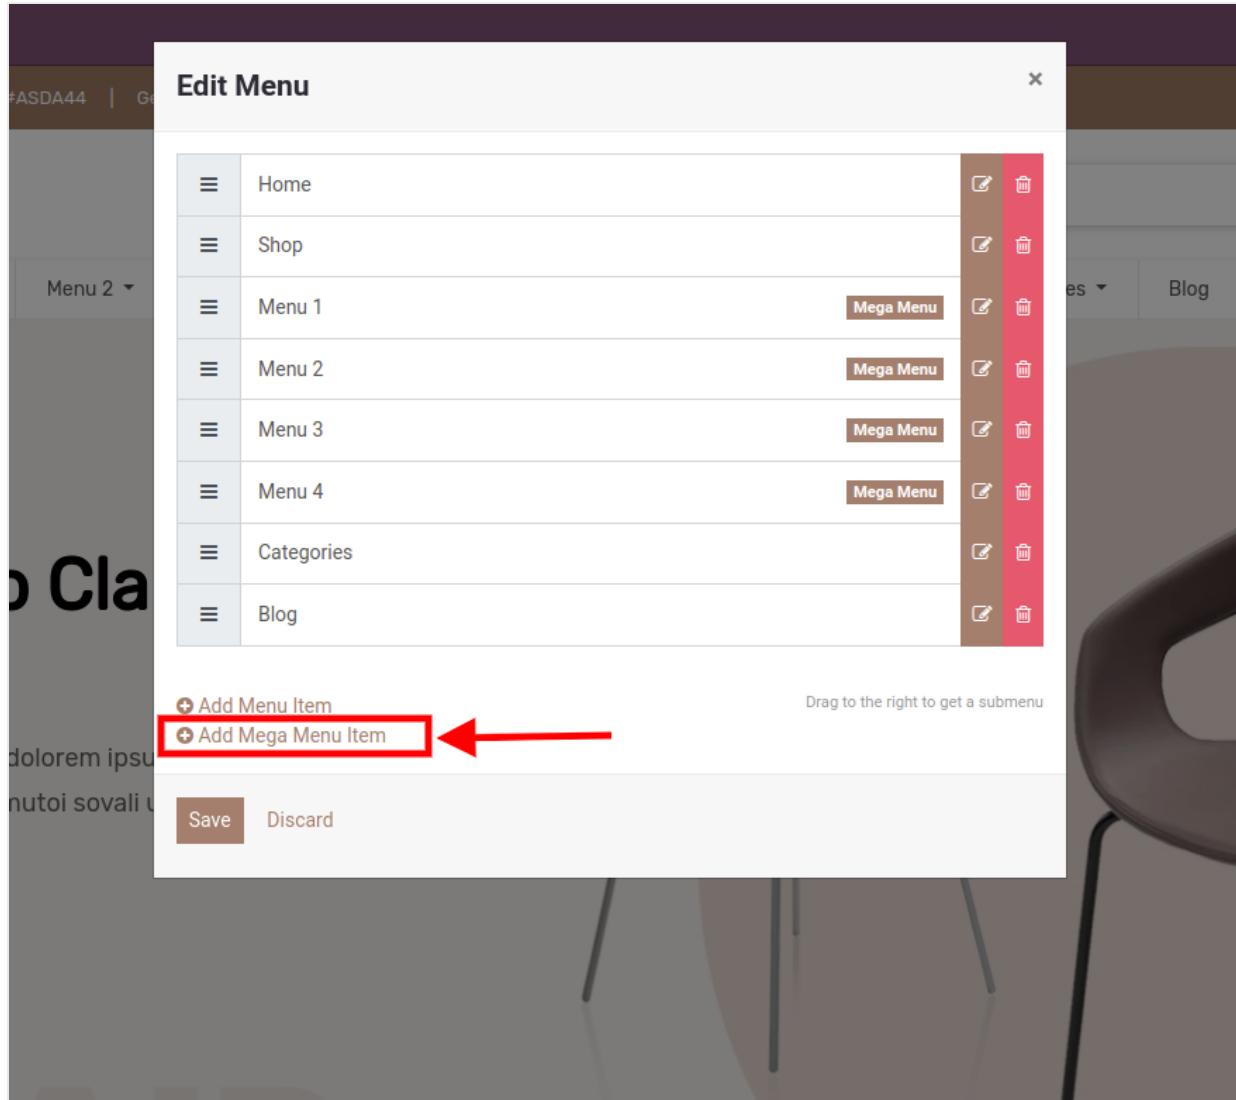

We are providing various snippets of different pages in our theme Clarico. There is no hassle to design your website. You can easily select the various predefined snippets like 3 unique Homepage snippet, 3 About us snippets, 3 Service snippet, 1 Contact us snippet and 4 Our Team snippet in order to design your website more pretty.

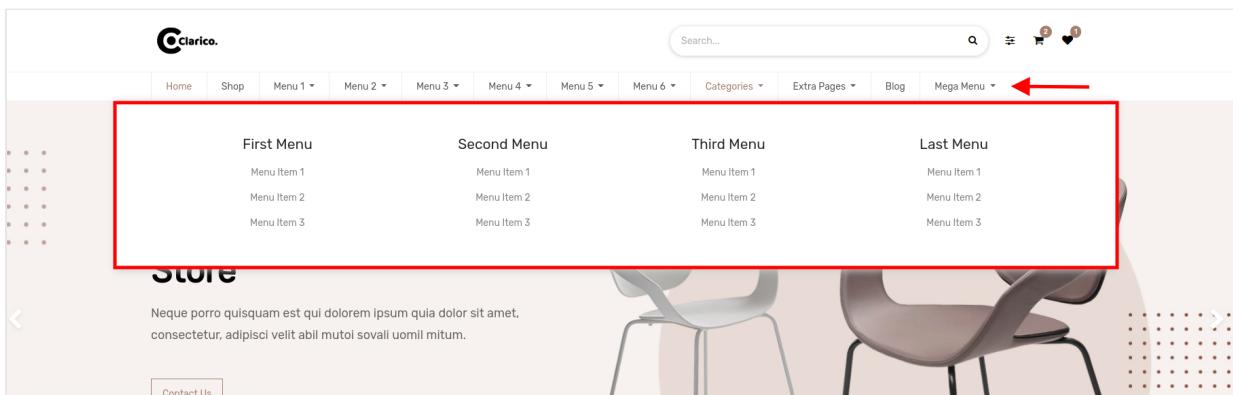

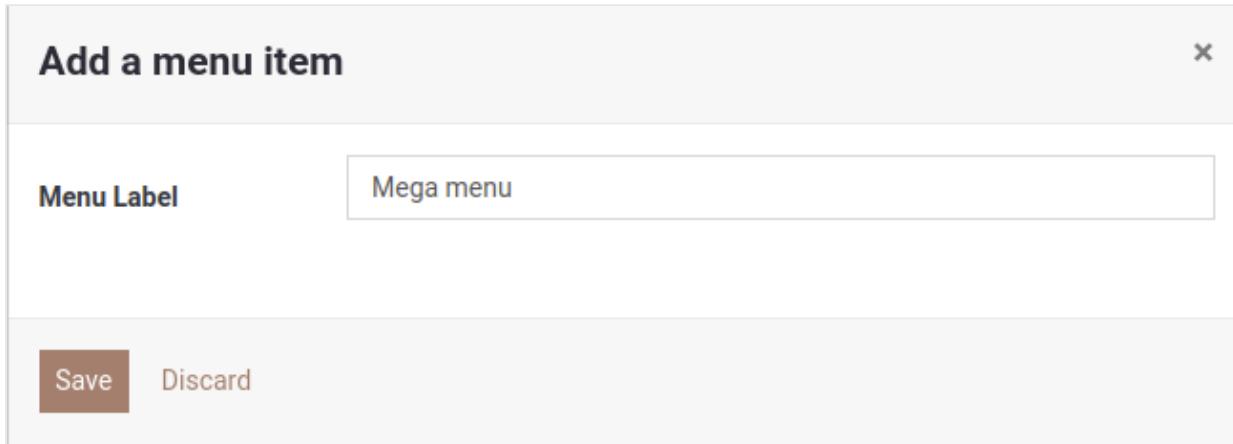

Note: You can find the page styles inside the snippet editor. You just need to create your page and apply the snippet.

Mega Menu

To create a mega menu, go to a web page -> Pages -> Edit Menu and click on "Add Mega Menu Item". It will show one popup to creating a mega menu record.

To make the mega menu look pretty. We provide the six snippets to change the mega menu design.

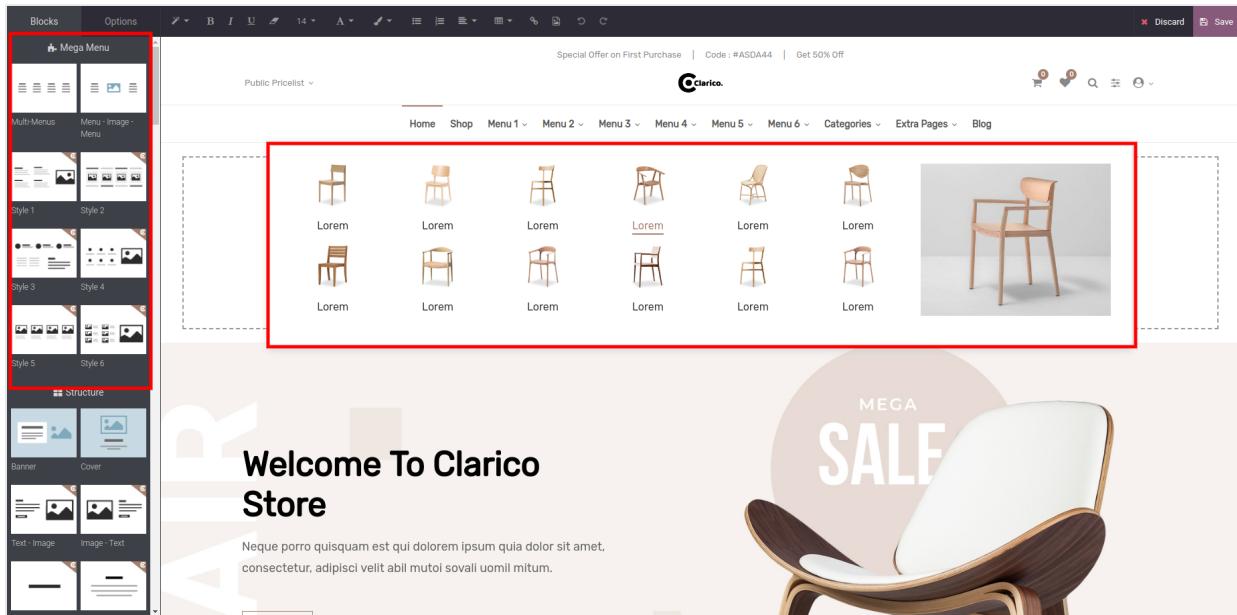

Steps to set the mega menu style :

Step 1: Go to the web page and click on the edit button in the top right corner of the web page.

Step 2: Click on the mega menu in which you want to change the design.

Step 3: Check the snippets list on the left side of the web page. There are six snippets available to change the menu styles.

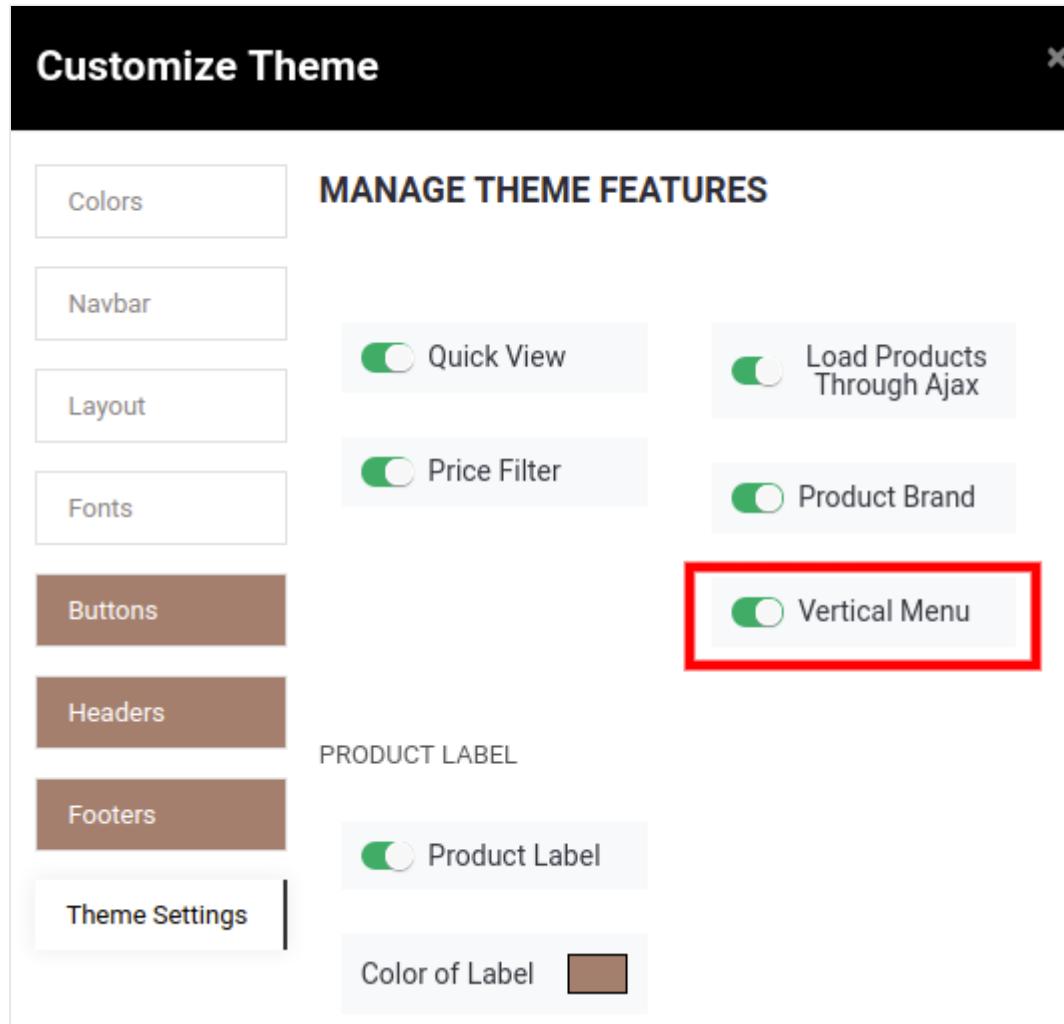

Step 4: Drag the snippet in the menu which you want to set. And remove the old style.

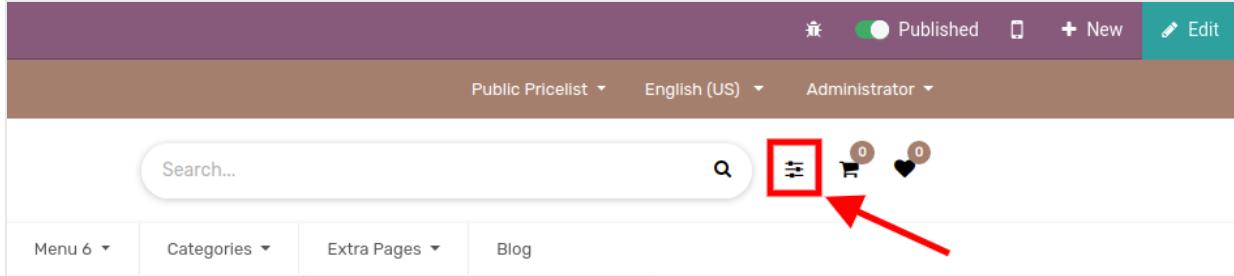

Vertical Menu

This feature provides you one menu in header section. It's very handy when the user has multiple informative menus.

To enable/disable the Vertical Menu, go to Web Pages -> Customize -> Customize Theme -> Theme Settings and enable Vertical menu.

After enabling this feature you can see the vertical menu icon at the header of the website.

The screenshot shows a website builder interface with a sidebar menu on the right side. The menu items are:

- About Shop
- Help Center
- Portfolio
- Blog
- New Look

Below the menu, there is a text block with the following content:

Pellentesque mollis nec orci id tincidunt.
Sed mollis risus eu nisi aliquet, sit amet
fermentum justo dapibus.

Contact information listed:

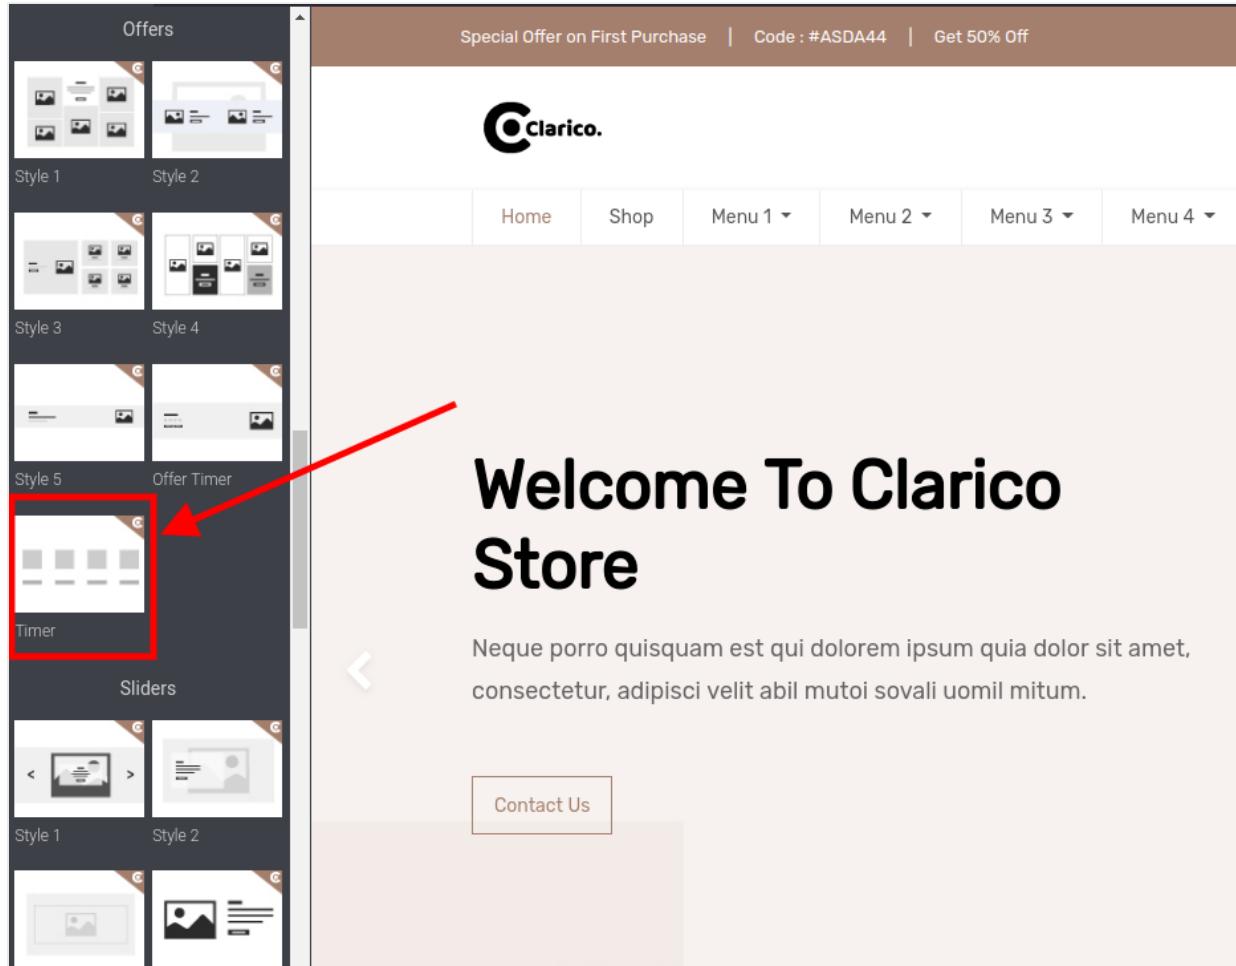

(+612) 2531 5600
support@emiprotechnologies.com
PO Box 1622 Colins Street West

Social media icons at the bottom:

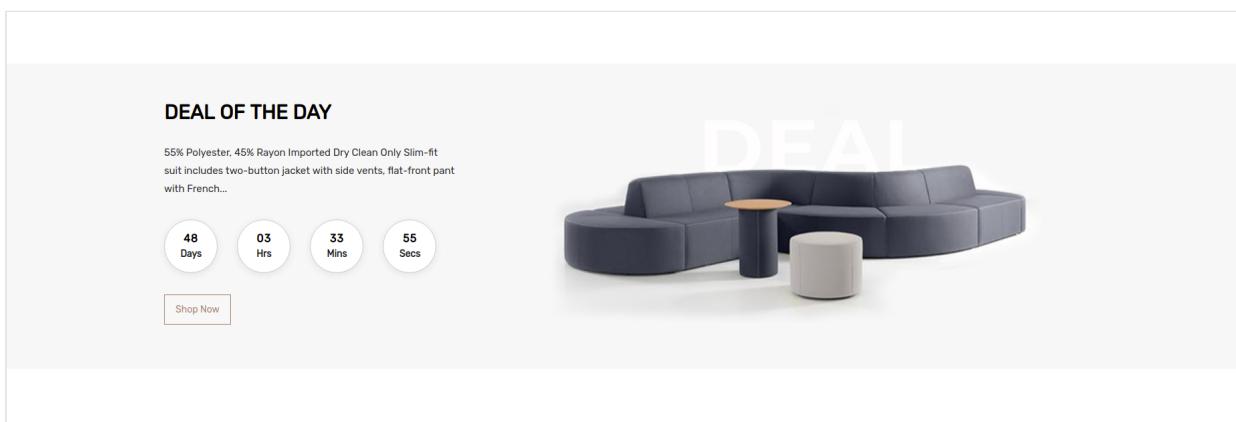

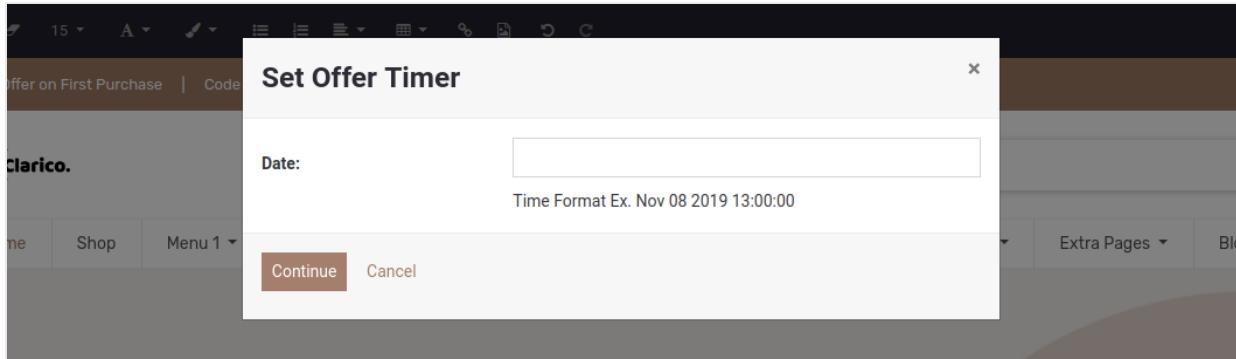

- f
- Twitter icon
- in

- Link icon

Timer Snippet

Timer snippet depends on the "Offer Timer" snippet. So First you need to drag the "Offer Timer" snippet. Then drag the timer snippet inside the 'Offer Timer' body portion.

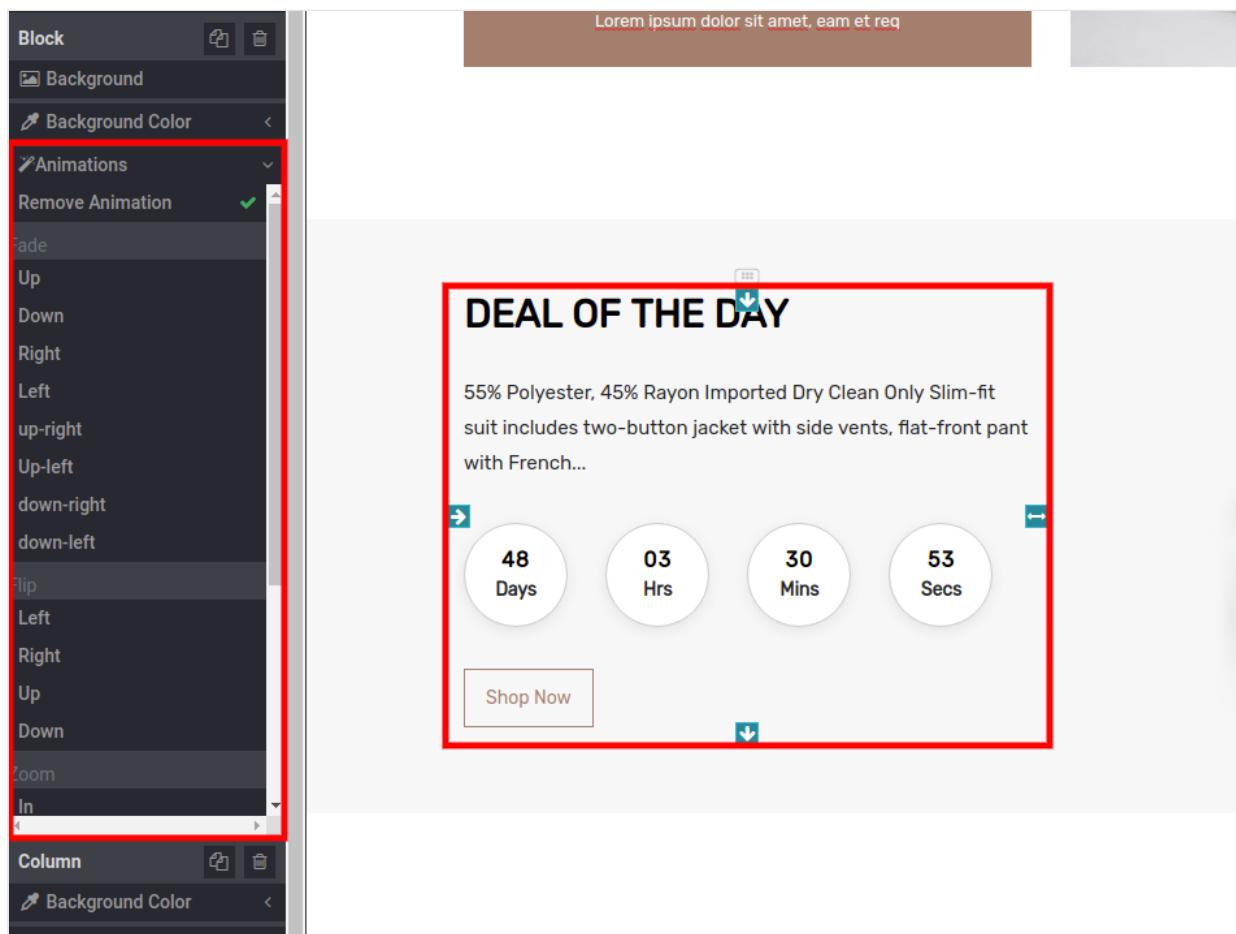

After dragging the timer snippet, it will show one popup to enter the time for offer ending time. Make sure time is correct format as shown in the below example.

Animation Effect

You can set the animation effect to particular elements of the snippet.

To set the animation effect on any element, go to the web page and click on the edit button at the top right corner. Then select any element and check the left-hand side of the web page there is one menu like "Animation". Select any animation effect from the effect list and save your changes.

Product Label

To enable/disable the Product Label, go to Web Pages -> Customize -> Customize Theme -> Theme Settings and set Product Label. And also You can select the label style and label color as per your needs.

Load Products Through Ajax

This feature provides the attribute filter data through ajax without reloading the page.

To enable/disable the Load through ajax, go to Web Pages -> Customize -> Customize Theme -> Theme Settings and set configure it as per your need.

Note: Load Products Through the Ajax feature will work with attributes only.

Brand Filter

To create a brand, go to 'Website → Configuration → Product Brands'.

The screenshot shows the 'Product Brands' configuration screen in Odoo. At the top, there is a blue header bar with the title 'Brand Filter'. Below the header, a message says 'To create a brand, go to 'Website → Configuration → Product Brands''. The main area displays a brand named 'Dikee'. The brand details include:

- Brand Name:** Dikee
- Website:** Demo Furniture Website (with a dropdown arrow)
- Language:** EN
- Status:** Published (indicated by a green checkmark icon)
- Products:** 8 Products (indicated by a small icon of three cubes)
- Logo:** A logo for 'DIKEE TAGLINE' is displayed, enclosed in a red rectangular box.

Below the brand details, there is a section titled 'Add/Remove Products of this Brand' with a sub-section labeled 'ADD'. This section lists several products that can be assigned to the brand:

Product	Description
Carvel Multi-Utility Wardrobe (Teak Finish)	Dream Bed With Storage
Hydraulic Storage Beds & Sofas	Silvio Rocking Chair (Natural Finish)
Terry Breakfast Table (Teak Finish)	Vigo Sofa Cum Bed
Godrej Zurina Bed With Storage	Steve 4 Seater Dining Set (Honey Finish)

As shown in the screenshot, Fill up the details of your brand and it will be preferable to upload the logo size 130 X 130px. Also, don't forget to publish the brand.

After creating a brand, Let's assign it to products. Go to the Product view.

Product Carousel

Steps to configure the product carousel:

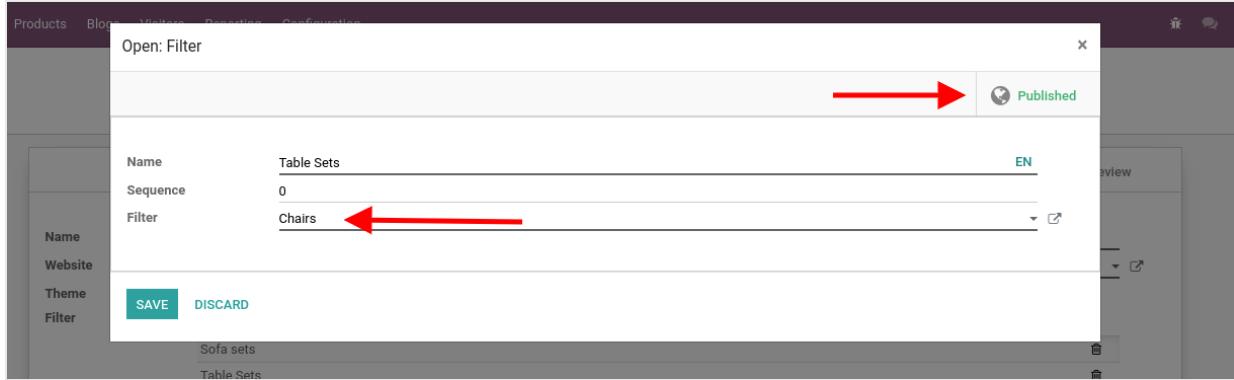

To configure the product slider, first you need to create a filter from the Product Template view. As shown in the below screenshot, go to the product view and create a filter by searching the products and save the filter.

The screenshot shows a product listing interface. At the top, there's a search bar with the text 'Sofa'. Below it, a sidebar titled 'Favorites' is open, showing a list of categories: Beds, Chairs, Sofa (which is checked), and Tables. A red box highlights the 'Sofa' category. To the right of the sidebar, there are two product cards: 'Arched Fabric Sofa [11118]' and 'Lionel L Shape Sofa (Grey) [11136]'. Below these cards, there's a section for a 'Bed' with a red box around the '5 Variants' link.

After configuring the filter. You need to create a slider record for configuring slider. For that go to Admin side, Website -> Configurations -> Slider -> Sliders.

The screenshot shows the 'Sliders' configuration page in the admin. At the top right, there are 'Published' and 'Preview' buttons, with a red arrow pointing to the 'Published' button. Below this, there are several configuration fields: 'Name' (Product Slider 1), 'Website' (Demo Furniture Website), 'Theme' (Theme Clarico v13), 'Filter' (a section where a new line has been added, highlighted with a red box), 'Slider Limit' (10), and 'Slider Style' (Style 1).

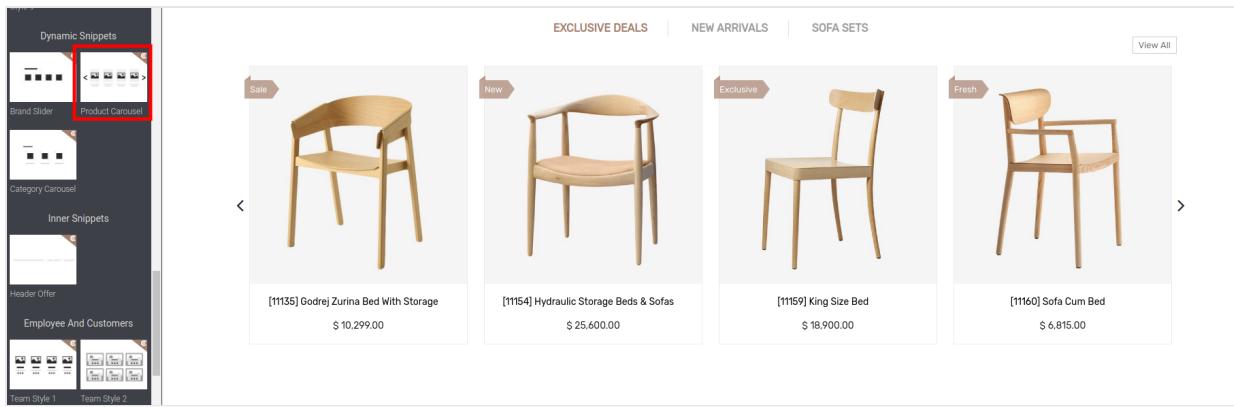

Once you click on add a line, one popup will open. Select the filter and publish that.

Set products limit and select slider style. 4 different slider styles are provided in this theme. Each style containing the different designs. After selecting slider styles, activate the record from the top right. You can also get a preview of styles by clicking on the preview button at the top right corner.

Note: Do not forget to publish this record by clicking on the “Published” button at the top right corner. If you don't publish this record, products will not be visible at the front end.

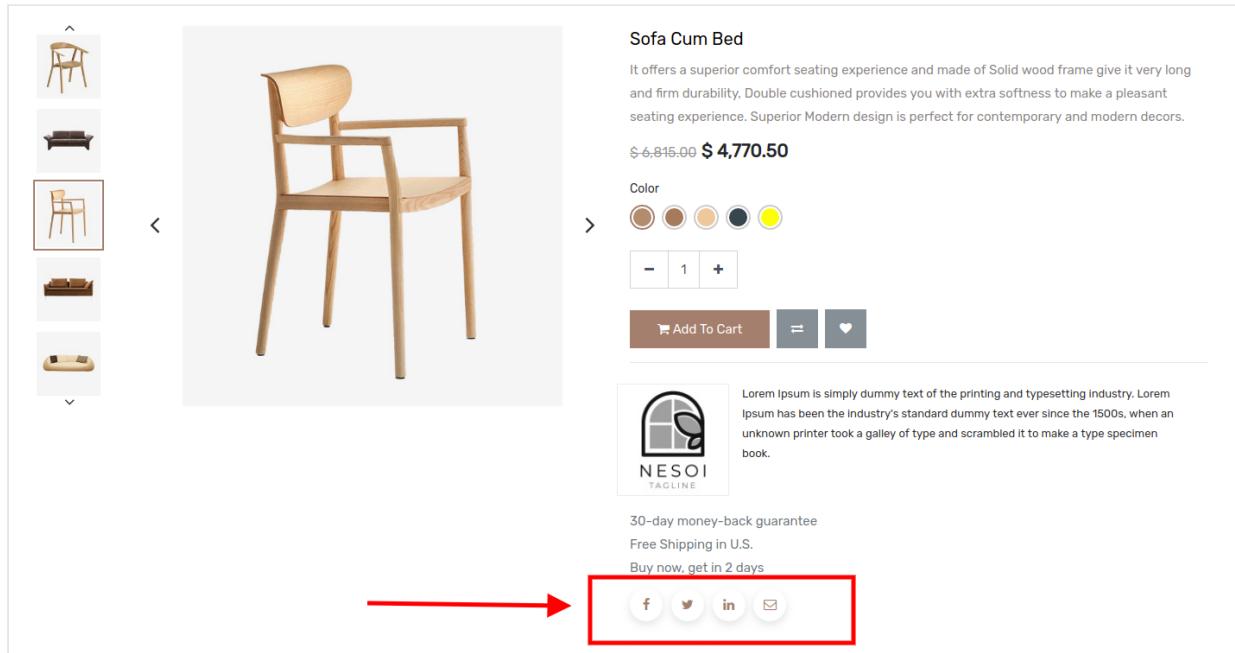

Now, Go to the webpage and drag and drop ‘Slider’ snippet from Dynamic snippet category.

Product Social Sharing

To configure Social share feature. Go to Admin side, Website -> Configuration -> Settings. There is one of "Product Social Sharing". Select the social checkbox which you want to set on the product page and save your changes.

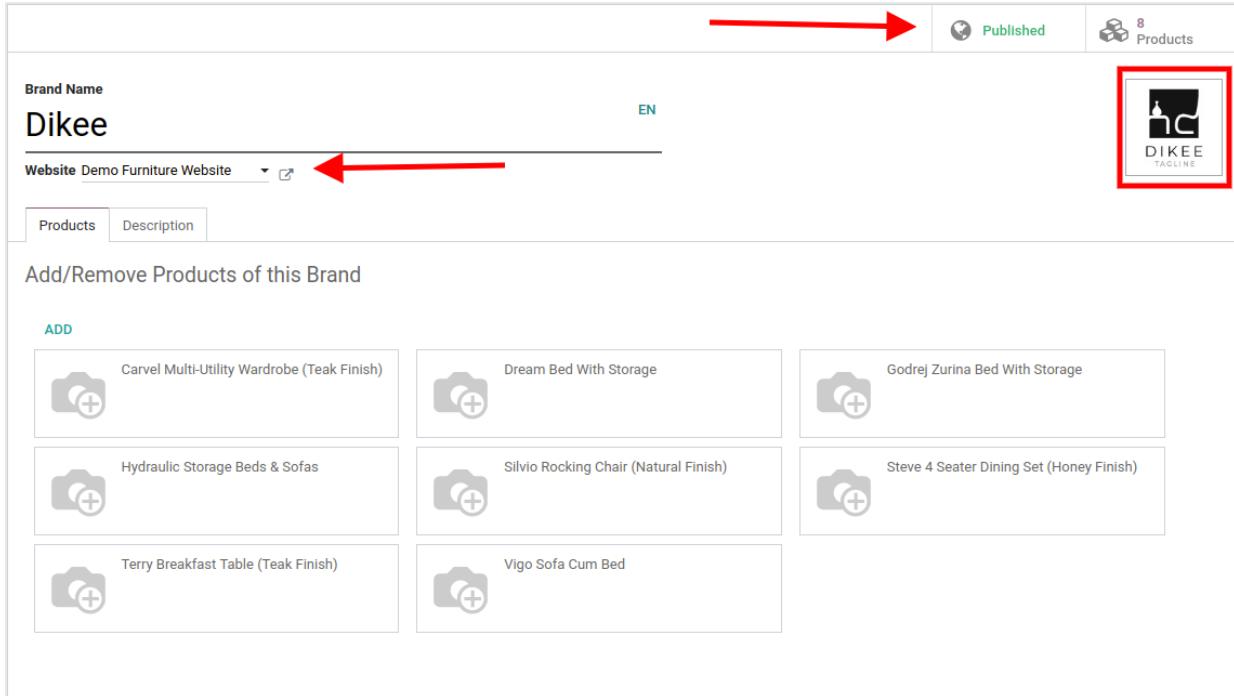

The screenshot shows the 'Settings' section of the Emipro Admin interface. On the left, there's a sidebar with icons for General Settings, Website, Inventory, and Invoicing. The main area has tabs for General Settings, Users & Companies, Translations, and Technical. A search bar is at the top right. The 'Product Social Sharing' section is highlighted with a red box. It contains four checkboxes: Facebook, Twitter, LinkedIn, and Mail, each with a description below it. Below this, there's a 'Products' section with checkboxes for Variants, Digital Content, Product Comparison Tool, Optional Products, Wishlists, and Inventory. A 'Mode' dropdown is set to 'Sell regardless of inventory'.

Brand Carousel

The brand carousel is a dynamic snippet. It displays records of brands that are configured from the admin.

Go to Admin side -> Website -> Configuration -> Product brands.

The screenshot shows the 'Brand Name' section for 'Dikee'. It includes a 'Published' status indicator with a green checkmark, a 'Products' count of 8, and a logo thumbnail. A red arrow points to the 'Website' dropdown menu, which is currently set to 'Demo Furniture Website'. Another red arrow points to the 'ADD' button under the product list.

The screenshot shows the 'Dynamic Snippets' section. A red box highlights the 'Category Carousel' option. Below it, there's a preview area titled 'My Heading 3' showing various brand logos and names: EOVO, ERIOS, GAIA, GYGES, HEBES, and NESOI.

Dynamic Snippets

Category Carousel

My Heading 3

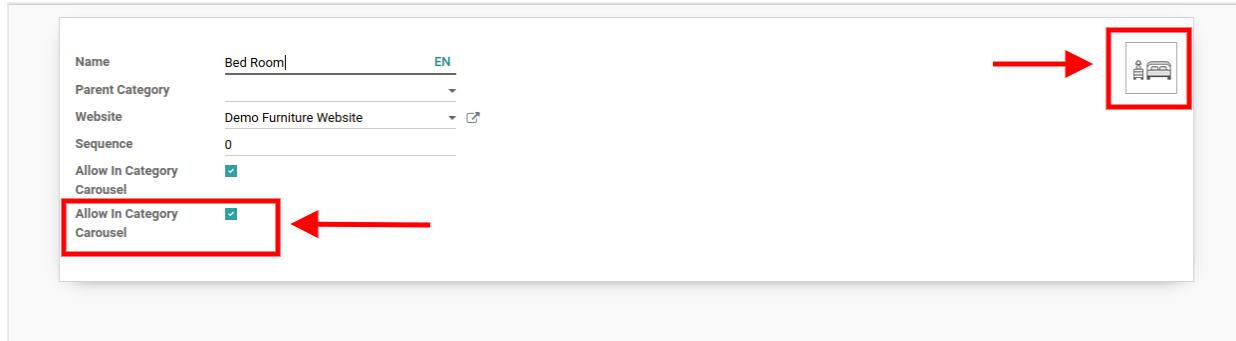

EOVO TAGLINE ERIOS TAGLINE GAIA TAGLINE GYGES TAGLINE HEBES TAGLINE NESOI TAGLINE

After creating this record you need to add the brand carousel snippet on a web page.

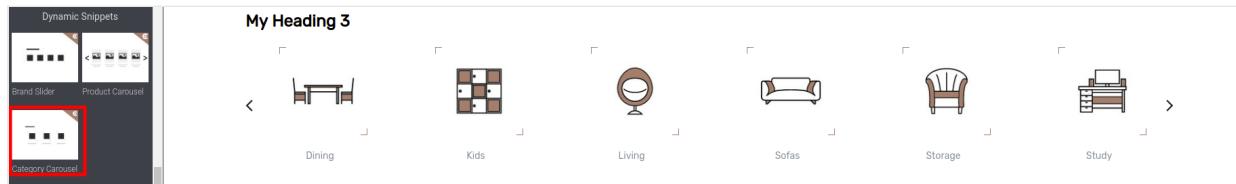

Note: Make sure you have added the brand image. Otherwise, It will not be displayed in the carousel.

Category Carousel

The category carousel is a dynamic snippet. It will show the configured category in the carousel and for configuring the category carousel go to this path, Website -> Configurations -> eCommerce Category. then select the "Allow In Category Carousel" checkbox to set this category in the carousel snippet.

After creating this record you need to add the category carousel snippet on a web page.

Note: Make sure you have added the category image. Otherwise, It will not be displayed in the carousel.
